Heinrich Heine University Düsseldorf (HHU), represented by its president, Professor Dr. Anja Steinbeck, expresses its full support for the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers (Charter and Code).

Having endorsed the Charter and Code through the German Rector's Conference in November 2005, HHU hereby notifies the European Commission of its commitment to pursue the implementation of both Charter and Code according to the process outlined by the European Commission in the Human Resources Strategy for Researchers.

Heinrich Heine University Düsseldorf already respects many aspects of the Charter and Code. By further endorsing these principles, HHU recognises the importance and value of the Charter and Code in realising an open and attractive European Research Area and in contributing to the improvement of recruitment and mobility conditions of researchers.
